About Biofactory Competence Center SA

The Biofactory Competence Center SA

The Biofactory Competence Centre SA (BCC) is a unique, not-for-profit company based in Fribourg, Switzerland, which provides theoretical and practical training, services and research collaborations and designs and builds infrastructures for the production of biopharmaceuticals. The BCC is a state-of-the-art modular facility of over 280m² including upstream suites for both mammalian and microbial cell culture, a downstream suite for separation processes, primary recovery, chromatographic and filtration skids, analytical laboratories, cell-banking as well as lecture rooms and offices. The facilities are designed to simulate cGMP operating conditions, to provide clients with an understanding of the working conditions in pharmaceutical production environments. All training and services are offered in English, German and French.

What we do

1

Training

Provision of training (interactive lectures combined with hands on practical work) in order to supply a highly trained workforce for the biopharmaceutical industries. Training programs are tailored to all levels of knowledge from new recruits, operators, specialists and senior management.

2

Services

Technical services/consulting to the biopharmaceutical and related industries; including process design, development and optimization, troubleshooting, show-casing and Beta-testing of vendors' equipment.

3

Facility Management

Design of new modular and flexible training, research and GMP production facilities; new process design and implementation. Companies setting-up internationally can purchase or lease modular units that can be used alone or in combination with the BCC training materials and trainers.

Who we are

Ian Marison
CEO

Tanja Buch
Technical Director

Charline Quignard
Training Instructor

Janina Zimmermann
Training Instructor

Training and services are delivered by subject matter experts with many years of industrial experience. Enthusiastic, dynamic and flexible, we are a team that listens to the client. We like interaction and our main interest, is that you have an efficient, profitable and pleasant experience at the BCC!
